*Announcement for the Academic Year,
1889-90.*

"THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO," is the name adopted by the Medical Profession of the Province of Ontario in its corporate capacity. As every legally qualified Medical Practitioner in the Province is a member of this College, it is not an Institution for the teaching of Medicine.

The Medical Profession in Ontario was first incorporated under this name by an Act of the Parliament of Canada, passed in 1866. This Act was subsequently repealed by the Legislature of Ontario in 1869, and now the affairs of the Profession in this Province are regulated by an Act passed in 1874, (37 Vict., cap. 30), commonly known as the "Ontario Medical Act."

By this Act, the "COUNCIL OF THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO," is empowered and directed to enact By-Laws for the regulation of all matters connected with Medical Education; for the admission and enrolment of Students of Medicine; for determining from time to time the Curriculum of the Studies to be pursued by them, and to appoint a Board of Examiners, before whom all must pass a satisfactory Examination before they can be enrolled as members of the College, and thus be legally qualified to practise their profession in the Province of Ontario.

The Council, moreover, has power and authority conferred upon it by this Act to fix the terms upon which Practitioners of Medicine, duly qualified in other Countries, may be admitted as members of the College of Physicians and Surgeons of Ontario, this being the only mode in which they can become legally entitled to practise their profession in this Province.

For the information and guidance of Students of Medicine, the profession and the public generally, the Council, in conformity with the Ontario Medical Act, hereby promulgates for the year 1889-90 the REGULATIONS which herein follow, repealing all others heretofore in force.

: **Regulations** :

FOR

1889-90.

SECTION I.**MATRICULATION.**

1. Every one desirous of being registered as a Matriculated Medical Student in the Register of this College, except as hereinafter provided, on and after 1st July, 1888, must present to the Registrar the official certificate of having passed the Second Class Non-Professional Examination—as prescribed for Form II, of the High School course of study—embracing the following subjects :—

- | | |
|-----------------------|-------------------------------|
| 1. READING. | 2. ORTHOGRAPHY AND ORTHOEPEY. |

whereupon he shall be entitled to be so registered upon the payment of twenty dollars, and giving proof of his identity.

2. Graduates in Arts, or Students having Matriculated in Arts in any University in Her Majesty's Dominions, are not required to pass this Examination, but may register their names with the Registrar of the College upon giving satisfactory evidence of their identity and certificate of qualifications, and upon paying the fee of twenty dollars.

3. Every Medical Student after Matriculating shall be registered in the manner prescribed by the Council, and this will be held to be the preliminary to his Medical studies, which will not be considered to begin until after the date of such registration.

SECTION II.**MEDICAL CURRICULUM.**

1. Every Student must spend a period of four years in actual Professional studies, except as hereinafter provided ; and the prescribed period of studies shall include four Winter Sessions of six months each, and one Summer Session of ten weeks, attended AFTER being registered as a Medical Student in the Register of the College of Physicians and Surgeons of Ontario.

2. Graduates in Arts of any College or University recognised by the Council will only be required to pass three years after graduating in attendance upon Medical Lectures, before being admitted to their Final Examination. No tickets for Lectures will henceforward be accepted by the Council unless it is endorsed thereon that the pupil had attended said Lectures regularly.

3. Applications for every Professional Examination must be made to the Registrar of the College of Physicians and Surgeons of Ontario, for the Spring Examination by the first Tuesday in April before such Examination, and for the Fall Examination by the 10th day of September, 1889. No application will be received unless accompanied by the necessary tickets and certificates, and by the Treasurer's receipt showing that the fees have been paid.

10. He must have attended six cases of Midwifery.

11. He must, before being registered as a Member of the College of Physicians and Surgeons of Ontario, have passed all the Examinations hereinafter prescribed ; and he must have attained the full age of twenty-one years.

12. Graduates in Arts who have attended one course of Lectures on Botany and Practical Chemistry, and two courses on Theoretical Chemistry, and who have already passed an Examination on these subjects in any of the recognised Colleges, will not be required to undergo a second

Examination on the same, provided they produce tickets for the courses of Lectures stated, and a Certificate of having passed an Examination on these subjects.

13. Graduates in Medicine from recognised Colleges outside the Dominion of Canada, who desire to qualify themselves for registration, must pass the Matriculation Examination recognised by the Council; and must attend one or more full Winter Courses of Lectures in one of the Ontario Medical Schools, so as to complete fully the Curriculum required by the Council, and shall pass before the Examiners appointed by the Council all the Examinations hereinafter prescribed. *This does not apply to Homœopathic Students.

SECTION III.

EXAMINATIONS.

1. The Professional Examinations are divided into two parts: a "Primary" and a "Final."

2. The Primary Examination shall be undergone after the second Winter Session, and the Final after the fourth Winter Session.

3. The following branches shall be embraced in the Primary Examination:

a. DESCRIPTIVE ANATOMY.

b. PHYSIOLOGY AND HISTOLOGY.

c. CHEMISTRY, (Theoretical and Practical.)

d. TOXICOLOGY.

e. MATERIA MEDICA AND PHARMACY.

4. Each Candidate for the Primary Examination will be required to present, with his Lecture Tickets, a Certificate of having undergone an Examination at the School he has attended at the close of his first Winter Session, on the Primary Branches. (Such Examination shall not, however, in any way affect the Primary Examination of the Council.) Also a Certificate of ability to make and mount Microscopic Specimens. Each Candidate for Final Examination must present a Certificate of attendance at six post-mortem Examinations, and a Certificate of ability to draw up a Report of a Post Mortem Examination; also a Certificate of having reported satisfactorily on Six Cases of Clinical Medicine, and Six Cases of Clinical Surgery.

5. The following branches shall be embraced in the Final Examination;

a. MEDICAL AND SURGICAL ANATOMY.

*See Med. Act, Section xvii, Sub-Sec. 2, 3, 4, which provides fully for Homœopathic Candidates, that they shall matriculate, and also spend the full period of study required by the Council, etc.

- b. PRINCIPLES AND PRACTICE OF MEDICINE AND THERAPEUTICS.
- c. GENERAL PATHOLOGY.
- d. SURGERY, other than Operative.
- e. SURGERY, Operative.
- f. MIDWIFERY (other than Operative) PUERPERAL AND INFANTILE DISEASES.
- g. MIDWIFERY, Operative.
- h. MEDICAL JURISPRUDENCE AND SANITARY SCIENCE.

6. The Primary examination shall be "written" and "Oral." The Final Examination shall be "written" and "Oral" and Clinical in Medicine and Surgery.

7. Any Candidate who passes creditably in three or more branches but fails in the others, shall receive credit for the subjects so passed, and be compelled to pass in the other branches *only*, at a subsequent Examination.

8. Candidates who intend to be examined by the Homœopathic Examiner in the special subjects, shall signify their intention to the Registrar previous to the commencement of the Examination, in order that he may provide means of preventing their identification by the other Students, or by the Examiners.

9. In the event of any Candidate signifying his intention to the Registrar to be examined and registered as a Homœopathic Practitioner, due notice of such must be submitted to the Registrar, so that the Examination may be conducted by the parties appointed for that purpose; but prior to the acceptance of such notice from the candidate, the usual fees must be paid. In the event of any Candidates presenting themselves for such Examinations, due notice must be given by the Registrar to the special Examiner.

10. The next Professional Fall Examination will be held in Toronto and Kingston, on the Third Tuesday of September, 1889; and the Spring Examination will be held in Toronto and Kingston, commencing on the Second Tuesday in April, 1890.

SECTION V.

EXAMINATIONS.

Rules for the guidance of the Board of Examiners.

1. No teacher in any School of Medicine in Ontario can hold the position of Examiner upon the subject upon which he lectures, or upon

which he may have lectured within one year prior to the date of the Examination.

2. Any Examiner, Member of the Medical Council, or registered Practitioner may be present at any of the Examinations, and there must invariably be not less than two members of the Board present at every Examination.

3. At the end of each Written Examination upon any Subject, the answers to the Question are to be handed to the Registrar, who will open the envelopes, in which they are hereinafter directed to be closed, and to each sett of papers affix a number by which the author will be known to the Examiners during the Examination. The Registrar will then deliver the papers to the Member of the Board of Examiners appointed by the Council to examine upon the Subject.

4. The papers, when delivered to the Member of the Board of Examiner appointed by the Council to examine upon the Subject, are to be by him examined, and the relative value of answers marked by means of numbers, in a Schedule which will be furnished to him by the Registrar, ranging for the Final Subjects, as follows :

Medical and Surgical Anatomy	0 to 100
Principles and Practice of Medicine and Therapeutics	0 to 100
General Pathology	0 to 100
Surgery,—other than Operative	0 to 100
“ Operative	0 to 100
Midwifery, other than Operative, and Puerperal and Infantile Diseases	0 to 100

Midwifery,—Operative	75	50
Medical Jurisprudence	35	25
Sanitary Science	20	15

That the per centage in the Primary Branches be as follows, ranging from 0 to 100 on all subjects :

	Honors.	Pass.
Descriptive Anatomy.....	75	50
Physiology and Histology.....	75	50
Chemistry,—Theoretical and Practical.....	50	35
Toxicology.....	50	35
Materia Medica and Pharmacy.....	75	50

5. The value awarded by the individual Examiners to the answers of Candidates are not to be subject to revision, except by an appeal by the Candidate to the Council.

6. The Examiners shall return the Schedules to the Registrar, with values inserted, at least three days before a final decision of the Board. From these values a general Schedule is to be made by the Registrar, and no change of value can be made after such individual Schedules have been returned to the Registrar. The General Schedule is to be examined as to its correctness by the whole Board; and the results announced by the Chairman of the Board.

7. Papers upon the Homœopathic subjects are to be finally submitted to the Examiner approved of for that purpose by the representatives of that system in the Council.

8. All Oral Examinations are henceforth to be as Clinical, Demonstrative, and Practical as possible, and the Candidate shall be known to the Examiner by Number only.

9. That it be an instruction to the Examiners in the questions in their respective subjects, to confine themselves to the text books in ordinary use (see page 12 of this announcement) also that in referring to diseases or operations of any kind, the names of such diseases or operations most commonly in use should be employed.

10. That it be an instruction to the Examiners that they in no case report a Candidate as having passed an Examination, when on any subject he makes less than the minimum of marks set by the Council for a pass on that subject; but in any case where they may think there are special reasons for granting a License to such Candidate, they shall report the same to the Council for its action.

Rules for Candidates when in the Examination Hall.

11. Each Candidate shall receive from the Registrar a Programme containing a list of the subjects upon which the Candidate is to be examined, and it will admit him to the Examination Hall during the progress of the Examinations upon such subject, but at no other time.

12. Candidates must write the answers to the questions given by the Examiners, legibly and neatly upon one side only of each page of a book, which will be furnished to each Candidate, and the number given with each question is to be put at the head of the answer to it, in such a

manner as to have the first page facing outward to the view ; they are then to be folded once, and enclosed in an envelope, on the outside of which each Candidate is to write his name. The packet is then to be handed to the Registrar, or to some one deputed by him. Neither signature, number, nor sign, by which the writer could be recognized by the Examiner, is to be written or marked upon any portion of the book to be enclosed in the Envelope.

13. The questions of the Examiners in the Homœopathic Subjects will be handed in writing, at the beginning of the General Examination on the same Subject, by the Registrar, to such Candidates as have given him notice in accordance with Section III, sub-sec. 8, 9. They shall write the answers to these questions in the same Hall with the other Candidates, and hand their papers, when finished, to the Registrar in the same manner as provided for the other Candidates, to be by him given for Examination to the Homœopathic Members of the Board of Examiners appointed to examine on that Subject.

14. If any abbreviations are used in answering the Questions, Candidates must be careful that they are such as are generally understood, or which cannot be mistaken.

15. No Candidate will be allowed to leave the Hall after the Questions are given out, until his answers have been handed in.

16. No Candidate will be allowed in the Hall during the hours of Examination, except those who are actually undergoing Examination.

17. Any Candidate who may have brought any book or reference paper to the Hall, must deposit it with the Examiner before the Examination begins.

18. Candidates must not communicate with each other while the Examinations are going on, either by writing, signs, words, or in any manner whatever.

19. Candidates must at all times bear themselves towards the Examiners with the utmost deference and respect ; and they will not be permitted in any manner to manifest approbation or disapprobation of any Member of the Board or Examiners, during the progress of the Examination.

20. Candidates must not only conduct themselves with decorum while any Examination is going on, but they will be held strictly responsible for any impropriety of conduct during the whole progress both of the Written and of the Oral Examinations.

21. Any infraction of the above rules will lead to the exclusion of the Candidate who is guilty of it from the remainder of the Examination ; and he will not receive credit for any Examination papers which he may have handed to the Registrar previous to his being detected in such misconduct.

Fall Examinations, 1888.

ANATOMY.

1. Describe the origin, course, and distribution of musculo-spiral nerve and its branches.
2. Give dissection necessary to expose the Popliteal Artery; enumerate its branches and their anastomoses.
3. Describe briefly the rectum, mentioning its vascular and nervous supply.
4. Describe shortly the inferior Maxillary bone.

F. LEM. GRASETT, M.B., *Examiner.*

PHYSIOLOGY AND HISTOLOGY.

1. Describe the parenchyma of the Kidney.
2. The Histology of a cross-section of a cerebro-spinal nerve.
3. Describe the structure of the different forms of cartilage, stating where each variety is found.
4. How is inspiration accomplished? Where is the respiratory centre situated? and what evidence have we of this?
5. Describe the human Red Corpuscles. What is Hæmoglobin? and how is it obtained.
6. What are the functions of the third nerve? and what is the effect of its complete division?

J. A. GRANT, Jr., M.D., *Examiner.*

THEORETICAL CHEMISTRY.

1. *Pure air is not a definite chemical compound.* If you think this statement correct give all your reasons.
2. Describe the usual mode of preparation (giving equation), and properties of Nitric Oxide (Nitrogen Dioxide). Give reasons why its molecular formula should be written, NO.
3. What is the meaning of the term equivalent, and how would you prove experimentally that the equivalents of Hydrogen, Magnesium, Silver, and Silver Nitrate are 1, 12, 108 and 170 respectively?
4. Enunciate Avogadro's, or, as it is often called, Ampere's Law, and apply it to determine how many volumes of Carbon Dioxide and water vapor are produced by the combustion of 100 litres of Marsh Gas.
5. (a) You require some pure Metallic Iron; how would you prepare it? (b) How would you prepare pure Silver from an alloy of Copper and Silver?

6. Describe any recognized method for the quantitative determination of Nitrogen in an organic compound. The ultimate analysis of a volatile organic compound gave the following percentage composition :—Carbon, 71.26 ; Hydrogen, 9.55 ; Oxygen, 19.19. Its vapor density was determined by Hoffmanns' method to be 2.881. What is its molecular formula ?

7. Describe a general method for the preparation of tertiary alcohols. How do primary, secondary, and tertiary alcohols behave on oxidation ?

8. Give a short account of the Chemistry of Carboic Acid.

GEO. ACHESON, M.A., M.B., *Examiner.*

PRACTICAL CHEMISTRY.

1. How would you detect the presence of Corrosive Sublimate as an impurity in a sample of Calomel ?

2. Three samples of White Crystalline Solids are given you, and said to be Magnesium Sulphate, Zinc Sulphate, and Oxalic Acid. Distinguish between them by chemical tests.

3. An acid solution of a salt gives a black or brownish black precipitate with Hydrogen Sulphide ; what metals may be present ? Give one characteristic test for each.

4. How would you determine the presence in urine of (a) Potassium Iodide (b) Morphine (c) Indican (d) Alcohol (e) Bile ?

GEO. ACHESON, M.A., M.B., *Examiner.*

TOXICOLOGY.

1. Give the symptoms and treatment of Acute Phosphorus Poisoning.

2. A young healthy adult has swallowed by mistake Ac. Hydrocyan. Dil. (B.P.) fl 31. Describe in detail the probable consequences, ante and post-mortem.

3. Give the diagnosis between (a) Opium poisoning and Apoplexy, (b) Strychnia poisoning and Tetanus.

4. What are the Chemical Antidotes to the following Poisons :—Corrosive Sublimate ; Lead Acetate ; Oxalic Acid ; Arsenic, and Silver Nitrate ?

GEO. ACHESON, M.A., M.B., *Examiner.*

MATERIA MEDICA AND PHARMACY.

1. Give the natural order, different preparations and doses of Elaterium, Conium, and Aloes.

2. What drugs are commonly used Hypodermically, and what precautions are necessary in their administration.

3. Enumerate the different preparations of Zinc. Give the dose and medicinal action of each preparation.

4. Classify Cathartics according to Physiological action, giving an example of each variety.

5. Change the following prescription into Metric terms :—

R. Potassii Bromide, 3v

Tr. Gen Com 3vii

Aqua ad 3iv

M

Sig 3ii every 4 hours.

6. Mention (without describing) the constituents of opium.

A. McKAY, M.B., *Examiner.*

PRACTICE OF MEDICINE AND THERAPEUTICS.

MEDICINE.

1. What are the symptoms of Pneumonia in the adult? Describe its several stages, and give the prognosis and treatment.
2. Describe a case of Exophthalmic Goitre. What is its probable physiological cause and character? What are the most appropriate methods of treatment.
3. Diagnose Active from Passive Congestion of the Brain, and give treatment of both.
4. What are the signs of a pleural effusion on the right side, rising to the level of the third rib? What symptoms would make you come to the conclusion that the fluid was purulent? and, in the later case, what treatment would you adopt?
5. Mention the duration of the incubation and subsequent stages of (a) Scarlet Fever, (b) Small Pox, (c) Measles.

THERAPEUTICS.

Candidates who passed Primary prior to 1886, are not required to answer the two following questions.

1. Mention the principal indications for the medicinal use of Arsenic.
2. Describe the various methods by which medicines are applied as Therapeutic agents.

C. IRWIN, M.D., *Examiner.*

PATHOLOGY.

MEDICAL.

1. Give the changes which take place in the Kidney, in Searlatinal Nephritis during the first week.
2. What constitutes Typhoid Fever? What Lymphatic Structures are chiefly affected by it?
3. In what localities, and under what circumstances, does fatty degeneration occur, and how is its presence recognized?

SURGICAL.

1. Of what does true pigmentation consist? In what pathological conditions does it occur?
2. Give the histology of granulation of Ulcers.
3. Name, and very briefly outline, the modes of union of wounds, give the causes of failure of union.

C. A. IRWIN, M.D., *Examiner.*

MIDWIFERY.—OPERATIVE.

1. Give the management of a *Natural Labor*.
2. In the first position of a Vertex presentation, how should the head and shoulders be delivered so as not to present the long diameter of either to the external outlet?
3. Treat a Rigid Cervix.

4. Describe the different methods of treatment of a prolapsed Funis.
5. Describe the *positions* of a Face presentation, and the different methods of treatment.
6. Give a brief description of the application of the *Forceps*.

W. BURT, M.D., *Examiner*.

MIDWIFERY, OTHER THAN OPERATIVE, AND PUERPERAL AND INFANTILE DISEASES.

1. Define the following terms:—Nullipara, Primipara, Multipara, Presentation, Position, Oxytoxic.
2. Describe the *straits* of the pelvis and the principal diameters of the foetal head at full term.
3. Describe the *Umbilical Cord* and the different ways in which it may complicate labor.
4. What is Puerperal Septicæmia? Give a description of the methods of Asepsis and Antisepsis in obstetric practice.
5. What are the conditions in Pertussis and Rubeola which render the prognosis unfavorable?
6. Give the symptoms and treatment of Acute Spasmodic Laryngitis (False Croup) in a child two years' old.

W. BURT, M.D., *Examiner*.

SURGERY.—OPERATIVE.

1. Describe, in detail, the operative procedure necessary to secure the wounded Femoral Artery in Scarpas' Triangle.
2. Describe, in detail, the operative procedure necessary to establish thorough and efficient drainage of a Suppurating Knee-joint.
3. Describe, in detail, the operative procedure necessary to afford relief in a simple depressed fracture of the skull, with "compression."

I. H. CAMERON, M.B., *Examiner*.

SURGERY, OTHER THAN OPERATIVE.

1. An old lady, sixty-five years of age, trips upon the carpet, breaks her thigh bone at its upper extremity, and falls. Diagnose the condition and treat the patient.
2. A young man falls violently upon the palm of his hand. It is immediately found that he cannot use his forearm, which is flexed, supinated and shortened on its anterior aspect. The olecranon stands out prominently behind the elbow, and there is a globular swelling behind the external condyle. The triceps tendon is separated from the humerus, and a rounded swelling can be felt in front of the joint. Diagnose the condition and treat the patient.
3. A child receives a severe wrench of the knee-joint, which soon becomes painful, hot, swollen, and perhaps red. You see it within 24 hours after the appearance of these symptoms. Treat it (the child).
4. Another child receives a kick upon the shin. Some time afterwards he complains of pain of a bursting or throbbing character in the affected area, greatly intensified by pressure, especially by tapping, and worse at night. The superficial structures present a somewhat defined swelling, and the skin is, perhaps, unchanged in color or somewhat dusky. Treat him

I. H. CAMERON, M.B., *Examiner*.

MEDICAL AND SURGICAL ANATOMY.

1. Describe that portion of the abdominal wall, bounded internally by the linea alba, below by the inner half of pouparts ligament, and externally by a line drawn from the centre of pouparts ligament to the umbilicus.

2. Name, in proper order, the structures divided in operating for Cleft Palate; in tapping a Hydrocele and in trephining the skull at a point two inches above and one inch in front of the tip of the ear.

3. Describe the operation of placing a ligature on the Brachial Artery at the bend of the elbow, and explain how the collateral circulation would be established afterwards.

4. Supposing the internal Popliteal Nerve to be divided at its upper part. Name the muscles that would be paralyzed, and give the position the foot would assume.

5. Describe the deformity known as Flat or Splay-Foot.

6. Give the relations of the right Kidney.

N.B.—Only one of the last two questions to be answered.

J. WISHART, M.D., Examiner.

MEDICAL JURISPRUDENCE.

1. The dead body of a newly born child is found exposed with the mark on its neck of a ligature. How would you determine that this mark was produced by the Umbilical Cord during delivery, and not by strangulation after death?

2. In the examination of a dead body, what external and internal appearances might enable you to certify that the person had died from drowning?

3. Describe the principal forms of suspended animation which may be mistaken for death, and give, in their order, the Post Mortem changes which usually occur in the body during the first twenty-four hours after death.

4. Give an estimate of the total quantity of blood in the adult human body, and the minimum amount of blood that may be lost in a fatal hemorrhage.

5. Describe the physical characters of a Seminal Stain on white cotton cloth, and the proper manipulation for its microscopical examination.

C. SCHOMBERG ELLIOT, M.D., Examiner.

SANITARY SCIENCE.

1. What is the influence upon the public health of this Province of (1) a hot, wet summer, (2) a cool, dry summer, (3) a mild, wet winter, (4) a cold, severe winter, respectively; having, more especially, reference to the influence of these Meteorological conditions upon particular classes of diseases at special ages?

2. What are the respective advantages and disadvantages, as a means of warming our dwellings of (a) an open fire-place, (b) a stove fed with coal or wood, (c) hot air from a furnace in the basement, (d) hot water pipes, (e) steam pipes?

3. What are the ill effects of eating salted food when fresh vegetables cannot be obtained? What preventive treatment would you adopt?

4. What precautions should be taken in the treatment of a case of Typhoid Fever, and a case of Variola, respectively, to prevent the diseases spreading? In describing the method of disinfection used in such cases, mention the disinfectants you would employ, and the way in which you would use them.

C. SCHOMBERG, ELLIOT, M.D., Examiner.

1889

= Spring Examinations. =

ANATOMY.

Time, 2½ hours.

Any three, but not more than three, of the following questions are to be answered.

1. The Ankle Joint.—Describe briefly (a) the bones and ligaments entering into its formation, (b) and also, in order, the structures in relation to it.
2. Dissection necessary to expose the Ulnar Artery in its entire course.
3. Origin and distribution of the Obturator, Posterior Interosseous, and Hypoglossal (from anterior and condyloid foramen) nerves.
4. Describe the Heart.—(a) Its position accurately, (b) its pericardium, (c) its valves, (d) its vascular and nervous supply.

F. LEM. GRASSETT, F.R.C.S.E., *Examiner.*

PHYSIOLOGY AND HISTOLOGY.

Time, 2½ hours.

1. What is the order in which the teeth appear? and describe the structure of a permanent tooth.
2. Give an account of the Innervation of the heart. How does the Muscular Tissue of the heart differ from Striped Muscular Fibre?
3. Trace the structure of a Bile Vessel as far as the hepatic duct. What is the general arrangement of these vessels? Give the composition and characters of Bile, and its uses in digestion.
4. Describe the Histology of the Pancreas.
5. Explain the effects of section of one Lateral half of the Spinal Cord in the middle of the dorsal region. Name the centres existing in the Spinal Cord.
6. How is the Placenta formed? How does the blood circulate in it, and what changes does it undergo during this circulation?

J. A. GRANT, M.D., JR., *Examiner.*

THEORETICAL CHEMISTRY.

Only one part of Question 5 is to be answered.

Time 2½ hours.

1. Define the terms *Equivalent*, *Atomic Weight*, *Atomicity* (*Valency*).
2. Enunciate the three principal laws of Chemical Combination by weight and show how these inductive truths may be deduced from the Atomic Theory
3. How many Litres of Carbon Dioxide at 30° C., and 606 m.m. pressure will be evolved by the action of 36.5 grammes of Hydrochloric Acid on an excess of Calcium Carbonate?

4. Describe the usual method for the preparation of Chlorine, giving the equation. To what other elements is it most closely allied; and what are the chemical characteristics of the group?

5. Show, by comparison of their chemical properties, the close relationship between (a) Magnesium and Zinc; or (b) Copper and Silver.

6. (a) Write out the *rational*, or *structural* formulæ, and give the names of all the possible *isomers* of Hexane ($C_6 H_{14}$).

(b) How many bodies are there having the Empirical formula $C_2 H_6 O$, and what are they?

7. Give a general method for the preparation of the Normal Primary Alcohols from the Normal Primary Paraffins. What are *Alcoholates*?

8. Give a short account of the chemistry of Urea.

Atomic Weights.

H 1.	Mg. 24.
Cl. 35.5.	Zn. 65.
O. 16.	Cu. 63.
C. 12.	Ag. 108.

Ca. 40.

GEO. ACHESON, M.A., M.B., (Tor.) *Examiner.*

PRACTICAL CHEMISTRY.

Only one of the questions marked with an () is to be answered in addition to 1 and 2.*

Time 1 hour.

1. You are given ten different aqueous solutions, each said to be a separate salt of Sodium. Describe how you would definitely determine that they are the Chloride, Chlorate, Iodide, Nitrate, Sulphate, Thiosulphate, (Hyposulphite), Carbonate, Acetate, Orthophosphate, and Oxalate.

2. A sample of clear urine gives a distinct precipitate on heating; what may this indicate, and how would you decide definitely what abnormal constituent is present? In the same urine how would you prove the presence or absence of sugar?

3* You suspect the water of a certain well to be contaminated with sewage; what chemical tests would convince you of the correctness of your suspicion?

4* You are attending a patient with Acute Pneumonia, and you wish to determine whether the *Chlorides* in the urine are diminished to any considerable extent; how would you proceed?

GEO. ACHESON, M.A., M.B., (Tor.) *Examiner.*

TOXICOLOGY.

Time 1 hour.

1. What general evidence would lead you to suspect that a patient to whom you have been called has been poisoned?

2. Give the symptoms and treatment of Chronic Lead Poisoning?

3. Detail in their order the symptoms likely to arise after swallowing one grain of strychnia. What are the tests for this poison? Enumerate some of the difficulties in its detection, *post mortem*.

4. Compare and contrast the effects of Acute Poisoning by Arsenic, and by Oxalic Acid.

GEO. ACHESON, M.A., M.B., (Tor.) *Examiner.*

PROCEEDINGS
AT MEETING OF
MEDICAL COUNCIL OF ONTARIO,
IN JUNE, 1889.

TUESDAY, JUNE 11th, 1889.

Medical Council of the College of Physicians and Surgeons of Ontario met this day at the hour of 2 o'clock p.m.

The President, Dr. Burns, in the chair, called the Council to order.

The Registrar called the roll. All present excepting Dr. Wright who shortly after took his seat.

The President now addressed the Council at some length.

Moved by Dr. Roseburgh, that Dr. MacDonald of Hamilton, a Past-President of this Council be invited to take a seat on the platform.—Carried.

Dr. MacDonald took a seat on the platform, and on request addressed the Council at some length as to his former connections with the Council.

The President then finished his address as follows :

GENTLEMEN :

"A year has passed since you honored me with the Presidency of the Ontario Medical Council, thereby entrusting to my care during that period a general supervisory position regarding its duties. I have much pleasure in being able to inform you that owing to explicit instructions during the last few years, and the few changes made in the annual regu-

lations, the business of the Council has been transacted smoothly and efficiently by the regularly appointed officials, viz., your capable Registrar, Treasurer, and Solicitor. There has been no occasion for a meeting of the Executive Committee since June 1888. At that time the prosecutor was appointed and arrangements made for the fall examination. A report of that proceeding will be presented in due time. The only special meetings held were those of the Building Committee, and of that Committee appointed to consider the registration of British Licentiates and reciprocal registration with the British Medical Council.

Without attempting to foreshadow the details to be placed before you by the respective Chairmen, I am at liberty to state that our building is about completed in all particulars. The wisdom of that investment is every day becoming more apparent. I cannot pass over this subject without bearing testimony to the indefatigable exertions of Dr. H. H. Wright in his capacity of Chairman of the Building Committee. To his untiring watchfulness, and shrewd business management, may be largely ascribed the successful termination of its operations, and we must acknowledge the result of his efforts, associated with those of the Registrar in leasing the offices to a large number of desirable and satisfied tenants. Before dismissing this subject I cannot resist the temptation to indulge in the hope that some future Council may find it profitable to realize upon the investment in this building, and with the large amount of money it will then have at its disposal, secure another site. It appears to me desirable that when it is practicable to erect a building solely for the uses of the College it should be done. It will confer a boon upon the profession in this Province by supplying a common centre for all matters pertaining to medicine and to medicine only, not the least of which in addition to what we already possess, will be Surgical and Anatomical Museums, and larger library space.

With reference to the report to be placed before you by the Chairman of the other special Committee alluded to, I may say that since its last meeting a communication of some importance has been received by the Registrar from the Minister of Justice. This correspondence appears to more clearly define the powers of the separate Provinces to deal with the subject of Medical Registration. It will be submitted to you for consideration.

The special examinations held by your instructions last Autumn resulted in a pecuniary loss to the Council of nearly \$600. Many of the students who made application for this favor did not avail themselves of it when granted. I would wish to point out that the regulations regarding fees for "subsequent examinations" do not refer to a special examination, and I would suggest that if a special examination is permitted hereafter those students taking advantage of it must be given to understand that it is an extraordinary privilege, the cost of which must be

guaranteed. Complaints have been made in several quarters of the enormous amount of work undertaken by your examiners and the inadequate remuneration therefor. It may be of advantage with a view to securing and retaining the services of proficient gentlemen for this important work, that the subject be carefully reconsidered in order that some equitable scale of payment be prepared. There is no doubt that in the last two years the examiners' duties have been much more onerous than usual.

Two years have now elapsed since the Clinical Examinations were established, and it is the expressed opinion of the examiners that they have been of great utility. The facilities for the same are becoming more ample each year. The money you authorized for procuring suitable appliances, etc, for examination purposes in all branches has been advantageously expended. The recent examinations have been the most thoroughly practical ever held by this college.

I am constrained to notice in this report the observations of many careful men, both in and out of the profession, regarding the course of study required by this college. The opinion is general that notwithstanding the superior education given by the several medical schools of the Province a greater number of months should be devoted to the study of medicine than our by-laws require. We, at present, enforce a period of time practically amounting to only twenty-one or twenty-two months in the aggregate. It is held by some that four sessions of nine months a year would be little enough. This view is endorsed by enactments existing in some other prominent Colleges. Others maintain that if the Council required two Summer sessions in addition to the four winter ones now upon the regulations, it would be a move in the right direction. Whatever course may be chosen the necessity for a longer period of concentrated study on the part of medical students seems to be generally thought advisable. This subject is sure to be forced upon the attention of future Councils of this College and ought early to receive serious consideration.

And now, gentlemen, it only remains to observe that as this is the last session of the present Council, we have fairly reasonable grounds for congratulation as to the character of the work done during its existence. We may claim that the general welfare of the medical profession in this Province has, by carefully considered rules, systematically enforced statutes, judiciously expended money, and thorough searching examinations been steadily advanced.

We leave to our successors a work of which the rough parts have been largely worn off. They will find this College holding a position of esteem in the profession, and by the public regarded with respect.

In conclusion, I desire to thank you earnestly for the kind consideration shown me at times during my occupancy of this chair, and I trust

you will discover that nothing has occurred during the year that may cause you to feel that your interests have not been in perfectly safe keeping.

The President now requested the Council to select officers.

Moved by Dr. Buchan, seconded by Dr. Williams,

That Dr. J. G. Cranston be President of this Council for the ensuing year.—Carried unanimously.

Dr. Cranston, the President elect, now took the chair, and addressed the Council, thanking them for the honor conferred upon him, and requested the Council to elect the Vice-President and officers.

Moved by Dr. Campbell, seconded by Dr. Bergin,

That Dr. Moore be Vice-President.—Carried unanimously.

Moved by Dr. Bray, seconded by Dr. Wright,

That Dr. R. A. Pyne be re-appointed Registrar.—Carried.

Moved by Dr. Bergin, seconded by Dr. Wright.

That Dr. W. T. Aikins be re-appointed Treasurer.—Carried.

Dr. Ruttan, presented report of Committee appointed to confer with the Government regarding the duty on Surgical Instruments and appliances as follows :

To the Medical Council of the College of Phys. and Surgs. of Ontario.

Your Committee, appointed at the last meeting of this Council for the purpose of conferring with the Government as to the placing of Surgical Instruments and appliances imported into Canada upon the free list, beg to report as follows :

Your Committee met in Ottawa on the 30th of January last, and were most courteously received by the Minister of Finance and Minister of Customs, and presented their representations before them, receiving in reply a statement that the matters referred to would receive their careful consideration.

Since then we have received from the Minister of Finance a letter bearing date the 22nd May last, to the effect that the Government came to the conclusion that it would not be advisable to make any changes in the tariff at the session of Parliament just closed, and consequently the representations made by the Committee stand over with numerous others, for future consideration. Your Committee would therefore report progress and ask leave to sit again.

A. RUTTAN, Chairman.

On motion received and adopted without amendment.

To the Medical Council of the College of Phys. and Surgs. of Ontario.

GENTLEMEN,—Your Committee on Printing beg leave to report that your directions have been carried out. The annual announcements printed as usual. Tenders now in the hands of the Registrar were received, the lowest being accepted.

On motion the Council resolved itself into a Committee of the Whole, on the By law to provide for holding the Territorial Elections to the Medical Council of Ontario. Dr. Fenwick in the chair.

The Committee rose, the President in the chair. Dr. Fenwick presented the report of the Committee of the Whole on the election by-law.

Moved by Dr. Bray, seconded by Dr. Roseburgh. that the report of Committee of the Whole be received as amended.—Carried.

Moved by Dr. Bray, seconded by Dr. Roseburgh, that the by-law for holding Territorial Elections be read a third time, and passed as amended.—Carried.

By law No. 41.—By-law to provide for the election of the Territorial members of the Council of the College of Physicians and Surgeons of Ontario.

Whereas, power hath been granted to the Council of the College of Physicians and Surgeons of Ontario to make By laws, to regulate the manner of holding the elections under the provisions of the "Ontario Medical Act" 37 Vic. Cap xxx. Revised Statutes of Ontario, xli Vic. Cap cxlii. Be it therefore enacted as follows:—

1. That this By-law shall only apply to the election of the Territorial Representatives of the divisions named in Schedule "A" to this act appended, and for appointing Returning Officers for the ensuing election of Territorial Representatives, to serve in the Council for the time allotted to them in accordance with the Provincial Statute. That is to say:—

No. 1. For the Western and St. Clair division, Dr. J. P. Rutherford, Chatham, Ont.

No. 2. For the Malahide and Tecumseh division, Dr. J. S. Edwards, London, Ont.

No. 3. For the Saugeen and Brock division, Dr. H. P. Yeomans, Mount Forest, Ont.

No. 4. For the Gore and Thames division, Dr. W. F. Dickson, Ingersoll, Ont.

No. 5. For the Erie and Niagara division, Dr. W. Burt, Paris, Ont.

No. 6. For the Burlington and Home division, Dr. G. M. Shaw, Hamilton, Ont.

No. 7. For the Midland and York division, Dr. H. C. Scadding, Toronto, Ont.

No. 8. For the King's and Queen's division, Dr. W. J. Wilson, Richmond Hill, Ont.

No. 9. For the Newcastle and Trent division, Dr. Bell, Peterboro', Ont.

No. 10. For the Quinte and Cataraqui division, Dr. A. S. Oliver, Kingston, Ont.

No. 11. For the Bathurst and Rideau division, Dr. H. B. Small, Ottawa, Ont.

No. 12. For the St. Lawrence and Eastern division, Dr. C. Hickey, Morrisburg, Ont.

2. That any member of the College presenting himself for election as the representative to the Medical Council for a Territorial division must receive the nomination of at least twenty registered practitioners resident in such division, and that such nomination paper must be in the hands of the Returning Officer of the division not later than 2 o'clock p.m., on the afternoon of the first Tuesday in March, 1890. In the event of only one Candidate receiving such a nomination, it shall then be the duty of the Returning Officer to declare such Candidate duly elected.

3. That the Registrar of the College shall send to every registered member of the College (excepting only those who are registered as the Homœopathic members thereof) a voting paper (in accordance with residence given on the Register) in form of Schedule "A" attached to this By law and a circular directing the voter to write his or her name in full as the voter, and his or her place of residence, and the County and Riding in which his or her place of residence is situated, and to fill up the said voting paper in form of Schedule "A" attached to this By law, as directed in the circular to be enclosed. The Registrar shall advertise in every Medical Journal published in Ontario, from January until March. That voting papers will be sent to every registered practitioner entitled to receive the same, by the second Tuesday in March, 1890, and that all members of the College not having received a voting paper, when more than one Candidate has been properly nominated for their division, will send by post to the Registrar their name and address, and on or before a certain day or time to be stated in the circular, the voter is to send by post or mail the voting paper so filled up, giving the name and residence of the person for whom he or she votes, enclosed in an envelope, which will be forwarded along with the circular and voting paper. The envelope in which the voter is to enclose his or her voting paper, will have the name and address of the Returning Officer appointed to act in the Territorial division in which the voter resides.

4. That the Registrar of the College shall mail the voting papers to the members of the College of Physicians and Surgeons of Ontario who are legally entitled to vote according to their addresses fourteen days at least previous to the day of election, the postage &c., all of which is to be paid by the College.

That the Returning Officers shall receive the votes sent to them up to the hour of 2 o'clock, p.m., on the last Tuesday in March, 1890.

5. That the Returning Officer in each division at the hour of 2 o'clock, p.m., on the last Tuesday in March, 1890, shall open the enve-

lopes carefully, count and examine the voting papers, and make a record of the entire number of votes cast, together with a declaration of the name of the person who has received the largest number of votes, who shall be declared elected as the representative of the division; and in case two or more Candidates receive an equal number of votes, the Returning Officer shall give the casting vote for one of such Candidates, which shall decide the election, and that at the hour of 2 o'clock, p.m., on the last Tuesday in March 1890, when the Returning Officer opens the envelopes he has received and counts the votes, any or all of the Candidates in the division or their agents may be present, and see the envelopes opened and the votes counted.

The Returning Officer in each division will not open any of the envelopes he may receive as Returning Officer until the hour of 2 o'clock, p.m. arrives on the last Tuesday in March, 1890. And that the returning officers respectively, shall seal up and return all voting papers connected with the election to the Registrar of the College, within 6 days from the time appointed for holding the election, which time is 2 o'clock p.m. on the last Tuesday in March, 1890. That the Returning Officer will reject all voting papers that are not properly filled up, in accordance with instructions contained in circular which is to be sent with each voting paper. The Returning Officer will return all envelopes received after 2 o'clock p.m. on the last Tuesday in March 1890, to the Registrar of the College unopened, and marked "too late."

6. That the Registrar on receiving the declaration from the Returning Officer declaring a candidate has received the largest number of votes in the Division, shall forthwith inform the candidate declared elected that he is the party chosen to represent such Division in the Council of the College of Physicians and Surgeons of Ontario, and the Registrar shall inform each member so elected of the time and place of the first meeting of the Council, after said elections shall have taken place. It shall be the duty of the Registrar to attend said first meeting of the Council, and to have with him then and there all the papers and documents sent to him by all the Returning Officers in order that they may be submitted to the Council, and the persons so named by the Returning officers as duly elected shall form the Territorial portion of the Council of the College of Physicians and Surgeons of Ontario.

7. It is hereby enacted that the Returning Officer of each Division is to be named by the representatives in the Council of that Division, and in case any Returning Officer appointed either refuses to act or is incapacitated, then the Registrar shall fill such vacancy by appointing some medical man residing in the Territorial Division, on the recom-

mendation of the representative of that Division. That the fee for acting as Returning Officer shall be ten dollars for each Division.

J. G. CRANSTON,
President.

On motion the Council resolved itself into a Committee of the Whole on the By law for levying the Annual Assessment, Dr. Campbell in the chair.

By-law read a second time.

Committee of Whole rose. President in the chair. Dr. Campbell presented report of Committee of the Whole as follows:

By-law reported without amendment. On motion report received.

Moved by Dr. Burns, seconded by Dr. Harris, that the by law for levying the Annual Assessments be read a third time, and passed, and seal of College attached, and signed by the President.—Carried.

By law for levying Annual Assessment.

“Whereas power hath been granted to the Council of the College of Physicians and Surgeons of Ontario to make By laws. Be it therefore, and it is hereby enacted that one dollar of lawful money of Canada be levied on each and every member of the College of Physicians and Surgeons of Ontario, in accordance with the “Ontario Medical Act,” 37th Vict. Cap. XXX, Revised Statutes of Ontario, Cap. CXLII for the ensuing year.

To the Council of College of Phys. and Surgs. of Ontario.

The Committee of the Whole report the above By-Law adopted without amendment.

J. G. CRANSTON,

President.

C. T. CAMPBELL,

Ch'n. Com. of Whole.

Dr. Burns asked permission to introduce a deputation from the Ontario Medical Library Association, consisting of Drs. McPhedran, Powell and Wishart.—Granted.

Drs. McPhedran, Powell, and Wishart addressed the Council regarding the necessity of further accommodation for the Library.

Dr. Williams presented a minority report from the Committee on British Registration which was received and distributed amongst the members.

On motion the Council resolved itself into a Committee of the Whole on report of the Building Committee. Dr. Fowler in the chair.

The Committee of the Whole rose, the President in the chair, when on motion the report of the Committee of the Whole was received and on motion, adopted as follows :

To the Council of the College of Phys. and Surgs. of Ontario.

“The Building Committee beg to report that the College Building has been completed according to contract at a cost of \$71,411.71, and on the advice of the Architect accepted by your Committee. In addition, a granolithic pavement at an extra cost of \$960 has been put down in front of the Building on Richmond and Bay Sts. The yard on the east side of the building has been paved with stone at an extra cost of \$250, and necessary expenses incurred in the way of putting down a floor and other improvements in the attic, amounting to \$590, so that

the gross expenditure to date amounts to \$73,194.71, the extras as above \$1,783 included.

Twelve offices have been let at an annual rental of \$3,700, and from enquiries made there is reason to anticipate the early letting of the remaining offices for about as much more. Your Committee procured Microscopes, Anatomical Specimens, Materia Medica Specimens, Models, Chemical Apparatus, Histological Specimens, Normal and Abnormal, to the extent of \$960.56, all of which have been found necessary, and fully to answer the purposes for which they were intended.

The room set apart for the Ontario Library Association, has been fitted up as directed by this Council to suit the views of the Association. Your Committee have by resolution remitted to this Council the determination of the rent. The annual supplies in the way of fuel, etc, have been awarded to the lowest tender, and in every way it has been the aim of your Committee to keep expenses at the lowest possible sum compatible with efficiency.

The elevator, though in running order has not been accepted by the Architect or your Committee, as the motor power used, a gas engine, is not deemed satisfactory, as when in use it makes so much noise, as to be objected to by the tenants. The matter is now engaging the attention of your Committee. The elevator is being run by and at the expense of the Contractor. Building is fully insured.

All of which is respectfully submitted.—Adopted.

H. H. WRIGHT, Chairman.

FIFE FOWLER, *Ch'm Com. Whole.*

Moved by Dr. Moore, seconded by Dr. Henry, in amendment, that the report be not now adopted, but that it be referred back to the Committee of the Whole, with instructions to amend Section I, (Matriculation) by substituting for the words "the second-class non-professional examination," an examination equivalent to honor matriculation in Arts of any of our Provincial Universities.—Lost.

Yeas and nays demanded and recorded as follows :

Yeas, Drs. Bergin, Buchan, Campbell, Henry, MacArthur, Moore, Orr.—7.

Nays, Drs. Bray, Burns, Day, Fenwick, Fowler, Geikie, Harris, Husband, Russell, Ruttan, Vernon, Williams, Wright.—13.

To the President and Members of the Medical Council of the College of Phys. and Surgs. of Ontario.

Your Committee on Education beg leave to report as follows :

1. The reports of the Medical Examiners for September, 1888, and April, 1889, were before them and duly considered. They find that in September, for the Final 39 Candidates presented themselves, of whom 24 passed, and 15 failed to satisfy the Examiners, and for the Primary 54 presented themselves, 31 of whom passed, and 23 failed to satisfy the Examiners. At the April Examinations, for the Final 191 Candidates presented themselves, of which number 126 passed, and 65 failed to satisfy the Examiners, for the Primary 244 Candidates presented themselves, 111 of whom passed, and 133 failed to satisfy the Examiners.

2. Your Committee have carefully considered the suggestions made by the Examiners, with respect to the Curriculum, and where deemed advisable have made alterations in accordance with their suggestions. Your Committee find that the Board of Examiners after conducting the April Examinations have recommended No. 245 for honors. As that Candidate was short of the required marks for that distinction but one mark in Physiology and Histology, we advise that this recommendation be acceded to.

3. Your Committee regret to find that one student required to be suspended during the examination for contravening the regulations of the Council by having notes in his possession during the Examination, and desire to express their satisfaction with the course pursued by the Registrar as well as the Board of Examiners in this matter. That in the case of T. H. Johnston, who, on the 9th of April, 1889, violated rule No. 17, governing candidates undergoing examination, that he be not allowed to present himself again for examination before the April examination of 1891, and that he then be required to pay full fees.

4. In view of this case, which, we are led to believe was the only case in which any attempt at contravening the rules was made, your Committee advise that the Property Committee be authorized to make such arrangements in the Examination Hall for the placing of Monitors in such positions, that the contravention of the Council regulations in this particular, will be an impossibility.

5. Your Committee have duly considered the advisability of raising the Standard of Matriculation for Students wishing to take the Medical course, and register at this College, as instructed by resolutions to them referred, and in view of the fact that the Matriculation has been three times changed in the last ten years and that it is much higher now than at any former time, and that as this present standard has been required

but a very short time, your Committee do not think it advisable to make any further advance in that direction at present.

6. The Committee was also requested by resolution sent from you, to consider the advisability of requiring Students before taking their Final Examination in Medicine to take in addition to four Winter Sessions of six months each, one Summer Session of not less than ten weeks duration in some recognized Medical College. Your Committee are of the opinion, that this would be in the interest of the profession, and advise that it be required.

7. We have fully considered the petition of one hundred and thirty-four Students referred to us, asking for a Fall Examination, and are of the opinion, that at least two Examinations should be held each year, one in the Spring, the other in the Fall, and we advise that this course be pursued.

8. Among the papers referred for our consideration from eight Students asking that their papers be re-read, on one or more subjects on which they had failed to satisfy the Examiners. In accordance with this request, your Committee by resolution appointed a Sub-Committee to examine them, and after receiving their report, and in view of the fact that they have recommended the holding of two Examinations each year, decided in all cases to sustain the report of the Examiners and they so recommend.

9. On a motion referred to the Committee by the Council, their attention was called to the fact that some Students attending the Homœopathic course in Ann Arbor University, have been allowed to present themselves before the Examiners of this Council, before completing the full course as required by our Curriculum. Your Committee advise that the Registrar be requested to see that the provision of the Statute in this particular is carried out as in the case of other Students, see page xvii, section xvii, clause ii, of the Medical Act.

10. In view of the very great amount of trouble occasioned by the Students being notified of the actual marks made on every subject on which they have failed, your Committee would advise that in the future, while a strict record of the marks made by each Student be made, and carefully preserved as at present, that in no case shall the Registrar furnish to the Student or any other person his marks, but they be notified on what subjects they have failed only.

11. W. L. Smith M. D. applies on behalf of his son, Jas. R. Smith, to be allowed to take the Latin of the third-class instead of that of the second-class as now required, and also to allow his time to count in Medicine, he having entered the study of Medicine and taken one course.

Your Committee cannot see its way clear to advise the Council to accede to these requests and must therefore decline.

12. William Delaney who has passed his Primary and Final Examinations failing in Materia Medica and Pharmacy only, asks to be allowed this subject. Your Committee cannot recommend that the request be granted.

13. W. D. Ferguson applies for a permit to practice as his father's assistant. The Council has not power to grant permits, and the Committee recommends that the Registrar be requested to write to him to that effect.

14. A communication was before the Committee from Dr. A. H. Wright, calling the attention of the Council to the fact that some Students had succeeded in getting tickets of attendance certified to by the Registrar of the University Medical School, who had not put in actual attendance as called for by the tickets, and indicating that steps would be taken to prevent its recurrence in so far as that is practicable. Your Committee recommend that the Registrar be instructed to reply to Dr. Wright and to thank him on behalf of the Council for his kindness in reporting the matter referred to.

15. Auguste Denis sends a certificate of attendance at a Montreal Seminary, and desires its acceptance for Matriculation. Your Committee advise that if it is Matriculation in Arts, and he can furnish proof to that effect, it be accepted.

16. D. A. Clenahan holds a second-class certificate grade A, but did not take Latin when passing that Examination, wishes to be allowed to enter on his work as a Medical Student in October, 1889, and to pass Latin in July, 1890. Your Committee advise that as the Council does not register persons as Medical Students until after Matriculation, they cannot make an exception in his case, and at the same time the Registrar to intimate to them that the Universities hold their Art Matriculation in October, and that passing the Latin at one of these, would be accepted by the Council.

17. John L. Nattress failed at the special Matriculation Examination held for those who wished to pass the Latin, and has entered on the study of medicine, having taken one course. He asks that we secure from the Department another special Examination, and that he be allowed to take the Latin for the 3rd class Certificate. Your Committee cannot advise that any efforts be made to secure special Matriculation Examination, as it would involve a large amount of expense and trouble, especially so as there are now ample facilities for preparing the Matriculation in the regular Schools and Colleges throughout the Province, and

as this Council does not accept and register a medical student until after Matriculating, we advise that he be so informed.

18. Your Committee have had before them a copy of a letter from the Education Department of the Province of Ontario, in which a willingness is expressed to allow intending Matriculates in Medicine to take the 2nd class non-professional examination without having taken the 3rd class previously. Your Committee are of the opinion that this would not in any way be detrimental to the interests of the College or the profession, while it would be an advantage to the students, and advise that the Registrar be requested to see if the arrangement can be brought about.

19. Amelia Johnston applies for registration as a Matriculate on a first class professional Certificate obtained in 1865. Your Committee advise that this request be acceded to, and that a marked Curriculum be sent her which will fully answer her other enquiries.

20. Geo. T. Bigelow applies to know if on taking three full course of Lectures in Ontario, and one at Bellevue, New York, he will be allowed to present himself for Examination. Your Committee think this should be no barrier to his taking the Examination provided the time required is completed in every particular, and they so advise.

21. J. E. McNee who failed in Anatomy by a few marks, asks to be allowed to pass. As your Committee have advised the holding of two Examinations each year we cannot recommend that his request be granted.

22. Mary E. Tindall, and Fred A. Wigle, apply for a supplementary examination. As the Committee has recommended a Fall Examination this will meet their request.

23. J. M. Armstrong and D. A. Grant have obtained second class professional Certificates, but have not completed their Latin to the satisfaction of the Department. They enquire, if having entered on the study of Medicine their time will be counted. Your Committee recommend that they be informed that in case they take the Latin at the first opportunity their time may be counted in Medicine.

24. In making a review of the Annual Announcement your Committee recommend that the Registrar be authorized to correct errors, and to make such alterations as are required to adapt it to the year, and have it issued as usual.

25. Your Committee would advise that in case the Council adopt their recommendations of holding two Examinations in each year, that it be a requirement from the students who have failed at an Examination that they give proof of having been engaged in the actual study of

medicine for a period of not less than three months after the date of their failure, and before they can again present themselves.

All of which is respectfully submitted.

J. A. WILLIAMS, Chairman.
